Weather King's "Weather-Break" Insulating Glass... For Your Warm-Edge Advantage

Weather King Windows feature insulated glass manufactured in our own plants using the latest in warm edge glass technology. All insulated glass made by Weather King incorporates a patented insulated glass spacer from TruSeal Technologies that has been widely tested and proven to provide a long service life, reduced heat loss and less condensation on the glass.

Established in 1950, Weather King has for years been the brand of choice in many fine homes throughout the Midwest. Our network of experienced professional dealers can assist you in making the proper choice from our full line of window and door products. We invite you to take a closer look at our exciting line of vinyl windows which feature the latest in design, style and quality. Multiple product lines in a variety of styles enable you to compliment the architectural flair of your home while selecting window features that work best for you.

Weather King also offers a full line of:

## THE ROYAL PLUS WINDOW SERIES

**Weather King**  
Windows & Doors, Inc.

# WEATHER KING'S ROYAL PLUS WINDOWS

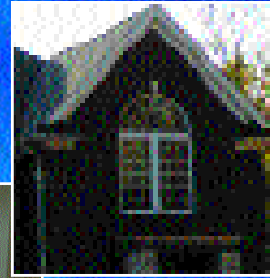

We are proud to present the Royal Plus Window product line. These windows will make a "Royal" difference in your home. The Royal Plus line has all the standard features you want in new windows.

The following options allow you to customize your windows:

- Colonial, prairie or diamond pattern muntin bars in 1 color: White, Almond or 2 colors: Dark Brown/White, Cocoa Brown/White, White/Oak Wood Grain.
- Tempered glass for additional safety
- New construction frame available with welded nailing fin
- Bronze or gray tinted glass for solar heat gain control & obscure glass for additional privacy
- Full Screens- Made as two 1/2 screens, easily removable from the inside
- Non-welded Royal series available at slightly lower cost

Royal Plus Windows offer the options to dress up a room to match any decor . . .

and the styles to compliment your home.

## Exterior Colors

Extrusion Colors - Also available as Exterior Laminates.  
Colors reproduced here may vary somewhat from actual product colors.

The exterior acrylic laminates use several layers to create a look unavailable from paint. The color looks deeper and the top coat helps provide outstanding colorfastness and exceptional weatherability. The texture establishes a richer look than any flat surface. Weather King now offers the laminated finish on all our products so that you can coordinate your home with your choice of color. The finish is easy to clean with standard cleaners and will retain it's beauty for years.

## Standard Features:

- 7/8" Insulated Low E Glass inside glazed for easy replacement
- 3 1/4" mainframe with multi-chambered extrusions
- Fusion welded frame and sash
- Double weatherstripped to reduce air infiltration
- Adjustable sash balances for smooth, dependable sash operation
- Sloped sills for effective drainage
- Tamper resistant dual cam action sash locks for security
- Full width extruded sash pull handles
- Sliders feature tandem rollers
- Interlocking sash meeting rails
- Lifetime limited warranty. See dealer for details.

Double Hung sash tilt-in for easy cleaning. Sash can be removed easily with our new lift out balance hardware system.

## Interior Wood Grains

Available on White or Almond

The Interior Wood Grains give the warmer appearance of wood.

Colors reproduced here may vary somewhat from actual product colors.
